Costs for Carolina Power and Light) GRANTING
Company) EXTENSION

On September 11, 1989, Carolina Power and Light Company (CP&L) filed a request for an extension to respond to Nucor's 10th set of interrogatories. CP&L stated that the responses will require extensive time and effort to prepare and due to the fact this proceeding has been continued until March 1990, CP&L requests an extension until October 9, 1989, in which to respond. The Commission finds that CP&L's request should be granted.
